Is This What Kimye's Child, North West, Looks Like?

By Alison Jackson

Photo: Alison Jackson

While today's tabloid cycle brought us North West's name, it may be weeks (or days, knowing the Kardashians) until we see photos of the newborn herself. In the meantime, enjoy this exclusive new work by British artist Alison Jackson, who examines "the cult of celebrity" by imagining private scenarios using lookalike actors: Britney Spears getting liposuction, for instance, or Prince Harry partying naked with his brother, Will. Britain's royals are a common subject of Jackson's, but in her latest work, the photographer shifts her gaze to America's newest royal family.
